RS-5658 Castroviejo Scissors

Spin this product round in 360 rotation; click to magnify. Drag to rotate.

Castroviejo Micro Dissecting Spring Scissors; Angular (Points To Left), Sharp Points; 9mm Cutting Edge; 0.15mm Tip Width; 3 1/2" Overall Length

Angled blades make it easier to cut from above while keeping the blades aligned with the line of cutting so that they do not penetrate deeply into the underlying tissue.
